Dear Partners:

Attached is a letter that I wrote to family & friends in 1988 discussing what the Lord was saying to me about the future of America. Most of those who got the letter are still alive, and some are members of the MRC congregation. So the truth and honesty of it is real.

I certainly didn't know that it would take 20 years to begin to come to pass; often when the Lord is speaking something to us regarding future events, we think they will come to pass in a few weeks or months, but they don't. That fact is confirmed over and over in the Scriptures. The Apostles did not know the timing of the Lord's return, Abraham's promise of a future son Isaac came 24 years before Isaac himself. Not uncommon at all.

Well I knew what He was indicating to me, but I thought it would come to pass a lot sooner. I knew it was going to come, but I didn't know the timing of the warnings.

I trust this prophecy given in 1988 will help in a couple of ways. It will help to prepare you for more difficult times in the near future. At this writing, I can tell you the economy is not going to see a speedy recovery. I knew it when it first started, and I know it now. So prepare to trust the Lord, honor His Word, and stay faithful to His causes.

Showing this letter from 1988 will also help confirm your faith in the certainty of the Lord's promises and His Word. He always keeps His Word and promises to us, for good if we obey, and unpleasant if we don't.

I may also put up on our Website the service from September 7, 2008 when the Lord first spoke to me in recent times about the economic challenges we now face. You may find the audio of that service interesting as I prophesied about a coming serious financial picture. At the time I spoke it, things were still doing okay. A month later, they weren't. I will be praying as to whether I should put that service online.

The 1988 letter cannot be reprinted, copied, or otherwise duplicated, as it is copyrighted and protected under law. Keeps the mischievous folks at bay.

Some parts are blacked out for certain reasons. One is that I wrote this before I was in the ministry to friends and relatives, so I could say things freely that I am not allowed say now as a 501c3 church/ministry. Isn't that a hoot.

Love you all. Jesus is Lord of the whole earth.

Dear Family/Friend:

I recently felt impressed to write each of you regarding events that will soon be taking place. [REDACTED]

[REDACTED] sometimes He'll show me what's coming up in the near future.

On March 24, June 11, July 24, 1987 and February 28, 1988 the Lord gave me several passages of scripture to confirm what He is about to do to America and other nations of the world. [REDACTED]

God shows me that disease will run rampant in America while immorality increases. America will have great problems within and great problems outside. America will cease to be successful ever again. They will no longer have the strength politically; financially, or militarily that they have enjoyed for so many years.

In 1962 courts banned prayer in public schools. Now the public school system is a joke. In 1973 the courts legalized abortion on demand. Since then 20 million babies have been slaughtered in America [REDACTED]

Homosexuality has created the spread of the most dreaded plague ever, but yet they continue to win rights (just recently a law was passed to prevent employment discrimination against them). In 1980 the courts voted to strip the ten commandments from public school walls. In 1981 a cross in a city park was declared "unconstitutional" by the courts. [REDACTED]

[REDACTED] How did prayer get in our country to begin with? Kick God out of anything and He'll go. The only problem is when He goes, so does His protection and assistance.

God said as with Egypt, the death angel will pass over America and any man, women, or child who does not have the cleansing and saving blood of the lamb Jesus over their heart, will fall by sword of some type, plague of some type, or famine of some type.

God tells me that many businesses that have prospered for years are going to fail. Many, many people are going to be losing their homes. You better make sure you're not just playing religious games with God. You better get on the Ark now. Next year may be too late to start. You better make sure you're a close friend of God so that when you call, He'll answer. He

[REDACTED] There is a point where a person can cross God's boundry of mercy and send himself thru terrible heart-ache and eventually eternal hell.

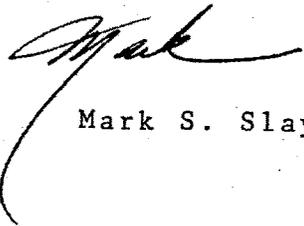

I'm sorry, but what do you want me to do, lie to you and say all will continue in good order? I can't cause it won't. Much hell and hurt is coming to the nations. God is going to shake this nation from the top to the bottom and everything that is not rooted and grounded in Him will fall, every household, every relationship, every person. We are rapidly approaching the last days of time.

You may laugh now folks, but let me tell you, you won't be laughing soon. Everything I've said will come to pass exactly as I've said. [REDACTED] If you want to know how to get on the Ark before the flood comes, if you want to know how to put the blood over your doorpost for passover, then give me a call and I'll help. If not, you better be prepared. Waiting to see if it will all take place like I've said will be too late. You have to start now. Anybody can believe after they see.

Love your Relative/Friend,
